

HIGH PRESSURE DECKWASH CONTINUING:

Specification:

Power Supply:

- Voltage: DC 24V nominal (28V DC operating)
- Current: 60A
- Duty Cycle 40%
- Size: shipping Measurement: 31cm x 60cm x 30cm
- Weight: Shipping Weight 16.5kg

Pressure adjustment: up to 100bars pending the size of nozzle on pressure gun

Pressure can be adjusted by simply turning the pressure orifice screw, whilst taking reading of pressure gauge on deck wash unit itself.

The pump cannot be connected directly to the vessel's water tank, as it requires priming. The priming is sufficient from the vessel's main water supply by pump.

Mounting: Is arranged via four independently adjustable feet.

A drawing displaying the measurements of the unit itself will be supplied.
